

Dear Parents,

Please take care of yourself and your family by staying at home and maintaining social distance. The nature may be cruel at this time but has given you a golden opportunity to connect with your family members and spend healthy time with your children as well. You are very important for them. Hope your children are busy with their studies and indoor games. You can involve them in quiz, chess, passing the parcel, word building, balancing beam, sock games and above all Yoga in the morning.

Teachers are trying their best to provide you quality work through different modes and of course it is a good learning for teachers as well. So learning is going on both the ways.

We will update you about the payment of fees within couple of days.

Thank you,

Dr. Urmila Singh
Principal –cum- ARO
